

Maxi Pro

A complete listening solution.

Qualcomm® aptX™
low latency

Discover the joy of better hearing.

Maxi Pro will help you enjoy the company of your near and dear ones. It brings out the words so you hear them loud and clear, even when there's a lot going on in the background.

Maxi Pro is a complete listening solution that connects your smartphone, tablet and even TV, so you can enjoy your favorite show and chat with your friends or family without having to leave the couch.

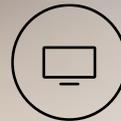

Speech amplification

Catch the conversation around the dinner table without effort.

Telephone amplification

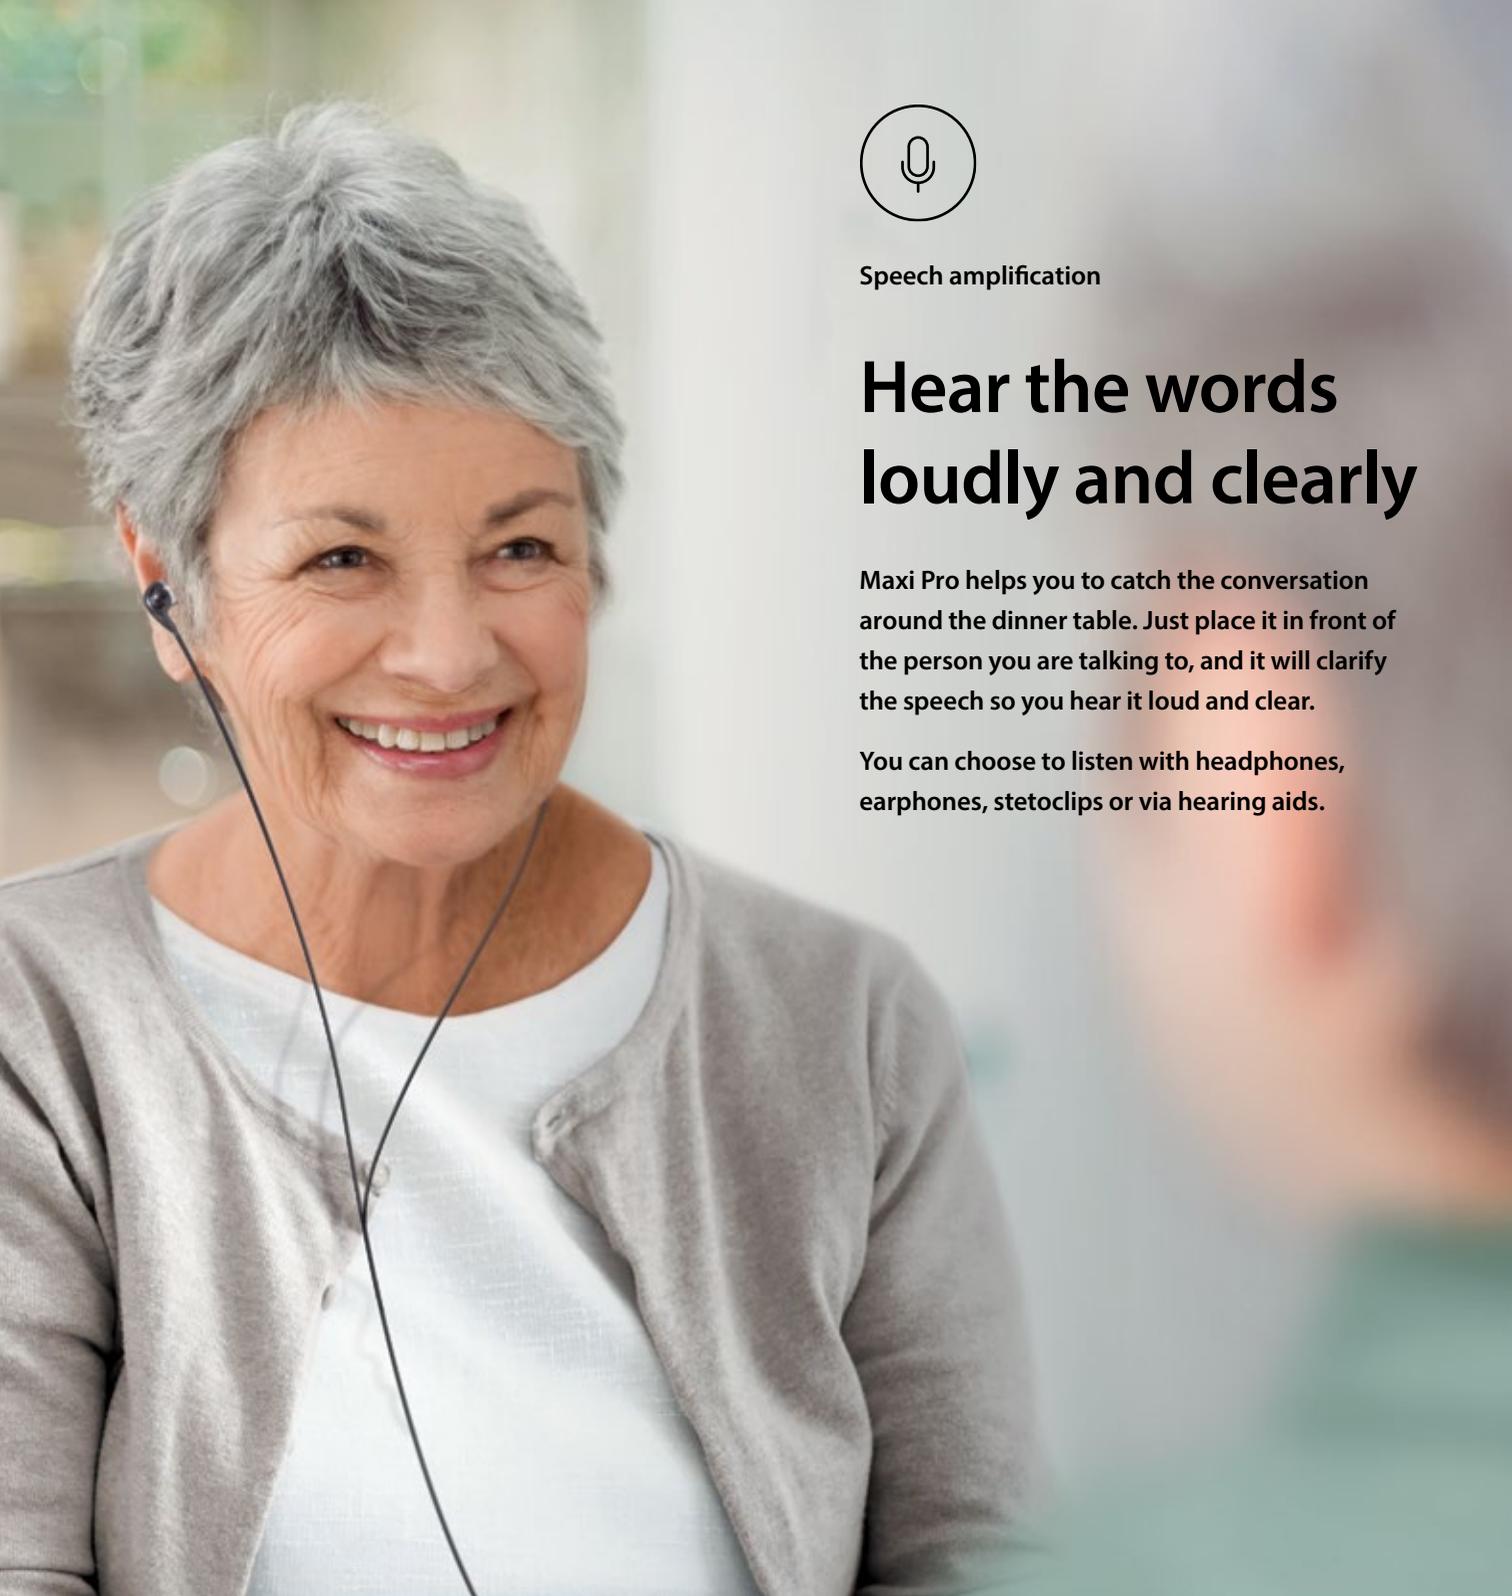

Hear when the phone rings and the caller's voice loud and clear.

Multimedia streaming

Stream sound from your TV, tablet or smartphone directly into your ears.

Speech amplification

Hear the words loudly and clearly

Maxi Pro helps you to catch the conversation around the dinner table. Just place it in front of the person you are talking to, and it will clarify the speech so you hear it loud and clear.

You can choose to listen with headphones, earphones, stetoclips or via hearing aids.

Telephone amplification

Stay connected to loved ones.

Sometimes, hearing when the phone rings and hearing the person on the other end can be a real challenge. Maxi Pro connects to your smartphone and amplifies both the ring tone and the caller's voice. This means, you don't have to ask your friends to repeat themselves.

Multimedia streaming

Listen at the volume of your choice.

Maxi Pro uses Bluetooth technology to stream the TV sound in full stereo directly into your ears. It also connects to your tablet, computer and Bluetooth music system, so you can stream your favourite songs and video chat just as loud as you wish.

Great ergonomics

Maxi Pro features large tactile buttons, soft grip materials and high contrast indicators. It's a great choice for people with reduced mobility and for those who cannot use hearing aids due to tremors, limited vision or low dexterity.

Intuitive interface

Maxi Pro is very easy to use. Everything is accessible with the press of a button and you don't have to navigate through any menus. Just plug in your headphones, adjust the volume and you are up and running.

In the box

The complete listening solution for speech enhancement, smartphone amplification and TV listening.
