

Visit Home alerting solutions

Peace-of-mind for you and your loved ones

Safety, independence and peace-of-mind, these are the qualities you deserve as you get older, and they're also qualities that you will find with the Visit home alerting solutions.

Numerous people with hearing loss already rely on Bellman & Symfon products to protect them and connect them to the ones they love. Here you can learn more about the Visit home alerting solutions and what they can do for you.

Stay close to your family and friends

Care | Home alerting solution An easy way to keep in touch

Family and friends play a big part in our lives and it is important to stay in touch with the ones we care about the most. Bellman & Symfon offers a proven solution for those of you who sometimes have difficulty hearing the doorbell or when the telephone rings.

The **Care** home alerting solution from Bellman & Symfon comes complete and ready-to-use. It ensures that your family and friends will always be able to reach you, providing peace-of-mind for both you and your loved ones.

Home alerting - all in one

- ✓ Doorbell notification
- ✓ Telephone notification
- ✓ Powerful flash alerting

1. At the front door

When a friend or relative comes by and rings the doorbell, it will automatically signal your Flash receiver.

2. By the phone

The same goes for the telephone. When someone calls you, your Flash receiver will notify you at once.

(Works via direct connection or optional wireless phone transmitter.)

3. In the living room

The Flash receiver produces bright flashing lights to show you that someone is trying to contact you.

Wake up fully rested

Safe

Fire alerting solution
Complete protection for your home and family

Did you know that three out of four fire accidents occur at home? If you have a hearing loss there is always a risk that you will miss the smoke alarm signal in the event of fire.

Bellman & Symfon offers a reliable fire safety solution that secures your home and protects the ones you love. It will wake you up immediately in case of fire, so you can sleep easy, knowing that you will always be given an early warning.

The package comes complete and ready-to-use and includes all you need to make your home a safer place.

Wake-up and fire safety - all in one

- ✓ Smoke detector
- ✓ Alarm clock
- ✓ Bed shaker

1. In the living room

Fires start suddenly and spread fast. A forgotten candle or faulty appliance can quickly develop into something serious.

2. In the hallway

When smoke is detected, the smoke alarm will sound and send a wireless signal to the alarm clock in your bedroom.

3. On the bedside table

The alarm clock and bed shaker awakes you at once with an extra loud alarm signal, flashing lights and vibrations.

Take care of your near and dear ones

Home alerting expansions For safe and independent living

The vast majority of seniors want to live out their lives in the comfort of their own homes, being close to family without becoming too much of a burden on the ones they depend on for love and support. As a partner or relative, to help maintain your near one's health and independence, you will most likely need the help of some assistive solutions to make everyday life easier for both of you.

Bellman & Symfon has developed a range of proven solutions that address these needs. During our two decades of experience within the field, the solutions have become the preferred choice by health-care professionals and family caregivers worldwide.

1. By the bed

Are you worried that you would not immediately discover if your partner fell, for instance when he or she gets out of bed to go to the bathroom?

2. In the kitchen

With a contact mat by the bed, you need not worry. As soon as your partner steps on it, it will signal your pager receiver that alerts you with vibrations.

3. To the rescue

This means that you are always just a buzz away and can come to the rescue if anything happens.

Choose your **own** combination

Peace-of-mind comes in small packages, but can have big benefits for you and the people you love.
