- 6 Smart snooze**
Reduces the snooze interval
- 7 Telephone notification**
Landline and mobile phone

* 100 dBA @ 4" (10 cm), 94 dBA @ 12" (30 cm)

Wake up and notification – all in one

The Alarm clock Pro plus wakes you using an amplified alarm, flashing lights and a bed shaker that vibrates under your pillow. The audible alarm uses different sound frequencies, so whether you find high or low pitched sounds hard to hear, there will be a tone to suit you. It also gets louder the longer you leave the alarm.

The alarm clock features a bright clear screen and large ergonomic controls that makes it very easy to set the time and alarm. It is also equipped with battery backup and a soft blue night-light.

This is perfect for when you get up in the night and don't want to put on a bright bedside light and wake your partner or dazzle yourself.

Notification during the nap

When you rest during the day, it's easy to miss when someone needs to get a hold of you. Now you can connect your landline and mobile phone to the alarm clock and be alerted when you receive a call or message – or even when you have an event coming up in your calendar. It works just as well with your tablet.

Technical specifications

Size and weight

- Height: **4.3", 108 mm**
Width: **4.7", 121 mm**
Depth: **3.6", 92 mm**
Weight: **13.7 oz, 390 g incl. batteries**

Connections

- External trigger input 3.5 mm stereo jack
- Telephone modular RJ-11 jack
Analogue network: 26-120 V RMS, 15-100 Hz

Output signals

- Sound**
100 dBA @ 4", 10 cm, 94 dBA @ 12", 30 cm
Built-in multiple frequency signal with a main frequency of 950 Hz - 3000 Hz
- Flash**
4 high-intensity flashing LED lights
Warning! Flashes can cause epileptic seizures
- Bed shaker**
Vibrator power: 2.0 - 4.0 V DC
Emits a sound
