

**The strong,
silent type**

That wakes
you up in a
different way

Wake up to **flashing** lights

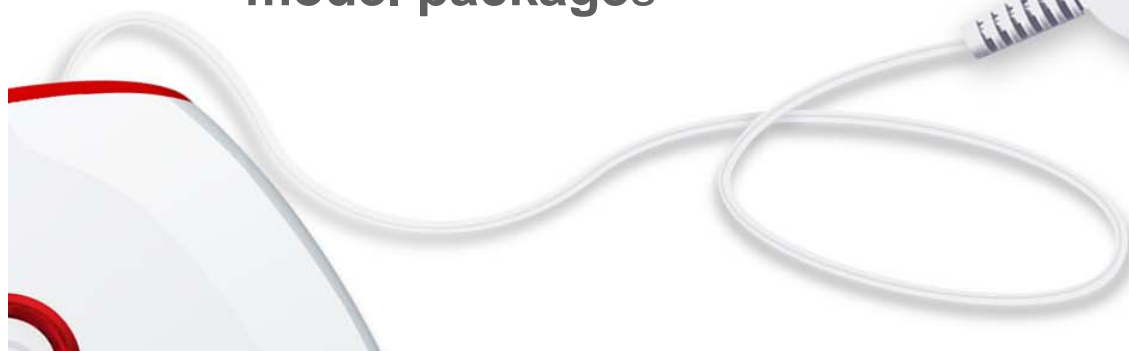

- High intensity LED flash
Same type as a modern
camera or a cell phone
- They have 1 - we have 4
- Effective even during the
day or if you prefer to
sleep with the lights on

PRO & VISIT

Wake up to **vibrations** and **sound** (!)

- ➔ New powerful bed shaker included
- ➔ Vibrates and **emits a sound** that can be heard through the pillow in the Pro and Visit model packages

Wake up to a **super loud** alarm

- ➔ Up to 100+dB – sure to wake up even the heaviest sleeper
- ➔ Increases slowly in volume
- ➔ Sweeps through the frequencies
Great for people with trouble hearing e.g. high tones

Snooze a bit **smarter**

- ➔ The clock reduces the snooze interval from 9 to 2 minutes, in two minute steps
- ➔ Enough time to wake up, but also enough time for a breakfast without stress
- ➔ Your stomach will love it!

Find your **way** in the dark

- Night light beacon
- Gentle blue light that guides you back to bed without waking anyone
- No more stumbling in the dark if you crave a midnight snack!

PRO & VISIT

Reliable in all conditions

- ➔ Powerful battery backup that steps in whenever the power goes out
- ➔ Keeps **everything** functional
 - Time and wake up time
 - Sounding alarm
 - Bed shaker
 - Flash

Additional features

Adjustable back light

Features a button that sets the backlight brightness in 5 steps

Amplified phone signal

Use the Pro and Visit models to amplify your telephone ring signal

VISIT & PRO

VISIT & PRO

While some
clocks look like this...

We think less is **more**

The **alarm** is activated

Incoming **phone** call

The **flash** is turned off

The **sound** is turned off

The backup **battery** is not working

Running on **backup** battery

(The cord is not connected or you have a power loss)

Charged **2/3**

Charged **1/3**

Starts to **flash**

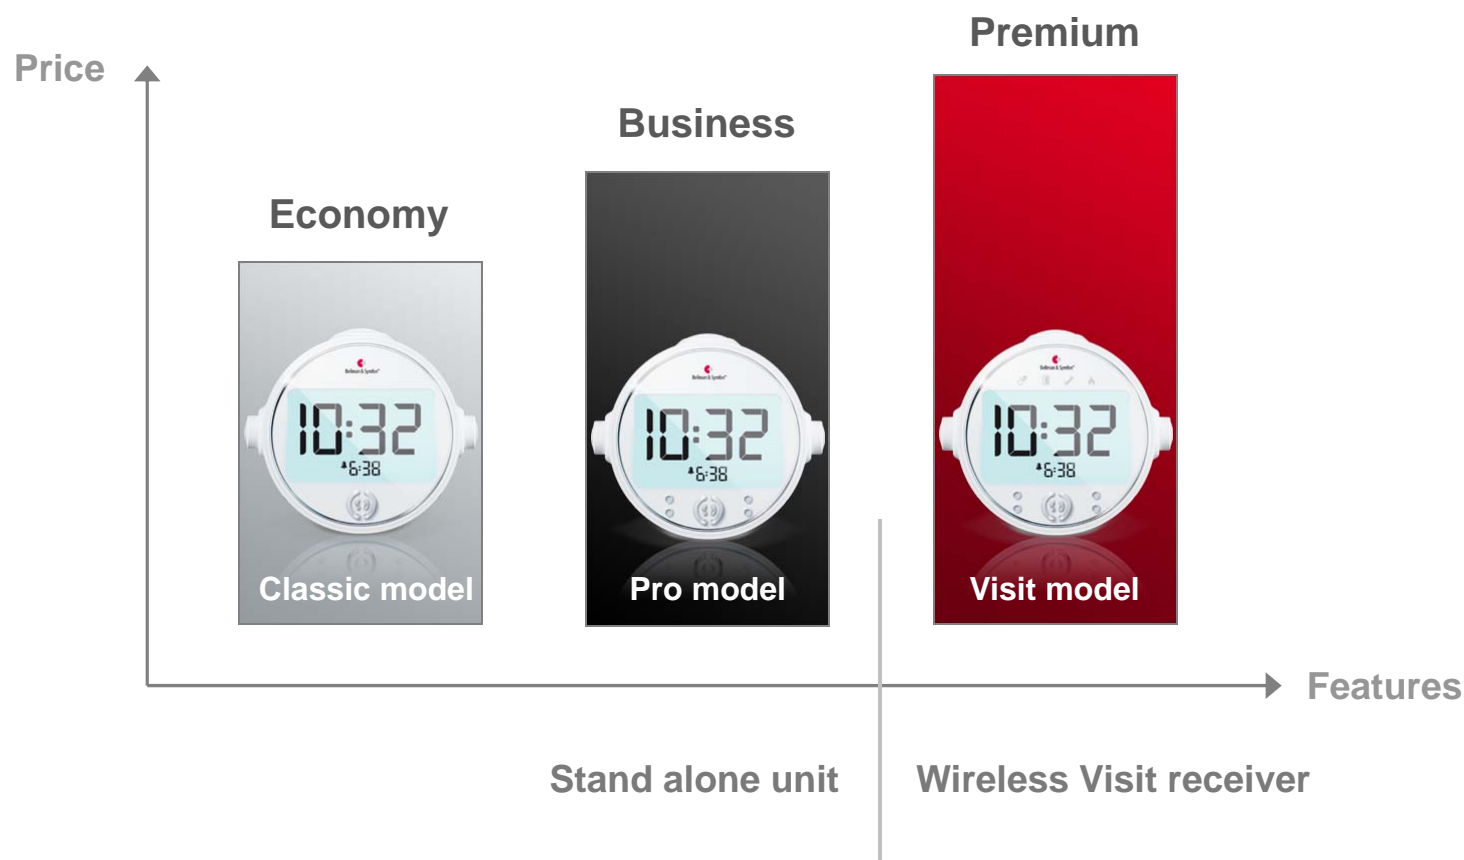

12-hour time format

A model for **every** need and wallet
