

Earphones

BE9124

Features

Closed drivers

Minimizes the risk of feedback

In-ear design

Increases the speech intelligibility

Small and lightweight

For a discreet look

Lightweight and discreet in-ear stereo earphones.

The in-ear earphones are specially selected for the Bellman & Symfon range of digital speech amplifiers and listening systems. They offer high-clarity stereo sound with great detail and feature closed drivers that minimize the sound leakage and risk of feedback.

The earphones are lightweight and provide excellent isolation from ambient noise, increasing the overall speech intelligibility.
