Visit Smoke alarm
BE1284

Features

Secure detection
Reacts to both smoke and heat

Reliable radio link
Covers your entire home

Long lasting power
10 years battery life

Silence/Hush function
Silences the alarm temporarily

Broadcast function
Relays alarms to all receivers

Protect your home and family.

The Visit smoke alarm transmitter is part of the Visit smart home system that helps you to keep tabs on your home. It discovers smoke and smoldering fire at an early stage and relays the alarm directly to your Visit receiver.

Watches out for you

If a fire starts, the Visit smoke alarm instantly relays the signal to your Visit receiver that alerts you with sounds, flashes or vibrations (depending on the receiver). Knowing that you will get an early warning provides a peaceful night's sleep for both you and your family.

The Visit smoke alarm uses a highly reliable radio link that covers your entire home. It is robust and features state-of-the-art battery supervision that warns you when the batteries run low. It is also equipped with a silence button to help you control nuisance and false alarms.

Features

- Sensor type
  Multi-criteria optical smoke and heat alarm
- Audible alarm
  > 85 dB(A) @ 10 ft (3 m)
- Silence/Hush function
  Reduces the sensitivity and silences the horn
  for about 10 minutes.
- Radio connection
  Features a separate radio module inside the
  smoke alarm.
- Broadcast function
  Transmits the alarm to all other Visit receivers
  within range, overriding the radio key settings.
- Warns for low battery, faults and end-of-life.
- Front indicator LEDs
  Smoke alarm – Red
  Radio module – Green
- Product lifetime
  10 years

Regulatory requirements

- BE1284 complies with the following standards:
  ANSI/UL217, CAN/ULC-S531, ANSI/UL539,
  ULC/ORD-C539, FCC Part 15 and IC RSS-210

Power and battery

- Batteries
  2 × 3V CR123A Lithium replaceable batteries
- Power consumption
  Typical 9µA standby
- Operation time: 10 years

Environmental requirements

- For indoor use only
- Operating temperature
  0°C to 40°C (32°F to 104°F)
- Humidity range
  15% to 95% R.H. (non-condensing)
- Heat sensor fixed rating
  57°C +/- 2°C (135°F +/- 5°F)
- Heat sensor rate of rise
  > 40°C (104°F) @ 8.3°C (15°F) / min

Frequency and coverage

- Radio frequency: 433.92 MHz
- Coverage: 50 – 160m(165 – 525ft.), clear line of
  sight. The radio coverage depends on the build-
  ing's characteristics and on local radio conditions.

In the box

- BE1284 Visit smoke alarm
- 2 × CR123A Lithium batteries
- 2 × Screws and plugs
- User manual

Maintenance and cleaning

- Vacuum your alarm regularly with the soft brush
  and wipe the unit with a slightly damp cloth.
