

Mobile phone sensor

BE9251

Features

Ergonomic design

Ideal for people with impaired vision or limited dexterity

Low center of gravity

Resumes an upright position if it is knocked over

Connects your mobile phone and tablet to the Visit system.

The mobile phone sensor from Bellman & Symfon is specially designed for the Visit smart home system. It is activated when a mobile phone or tablet screen lights up, for example from an incoming call or message.

Connect it to the Visit telephone transmitter or directly to one of the Visit flash receivers to be alerted by sound, flashes or vibrations when someone is trying to reach you.
