Visit smoke alarm
BE1289

Bellman & Symfon®

Features

Sensor type	Photoelectric sensor
Sealed battery	Lasts for 10 years
Silence mode	For areas with cooking fumes
Reliable radio link	Covers your entire home
Interconnection	Support for up to 40 devices

Protect your home and family.

The smoke alarm from Bellman & Symfon is part of the Visit smart home system that helps you to secure your home. It discovers smoke and smoldering fire at an early stage and relays the alarm directly to your Visit receiver.

Watches out for you

If a fire starts, the smoke alarm instantly relays the signal to your Visit receiver that alerts you with sounds, flashes or vibrations (depending on the receiver). Visit will give you an early warning, so you can get out of harm's way in time.

The smoke alarm uses a highly reliable radio link that covers your entire home. It is robust and features interconnection that supports up to 40 additional smoke alarms.

The smoke alarm is equipped with a silence function to mute false alarms while you are cooking.
